Dear Southfield Families,

Welcome to Southfield! As we embark on the 26/27 school year, the administration and staff are looking forward to another year of excellence and growing with our students. We strive to make sure we are constantly progressing our knowledge and skills to provide an education that leads your student to their highest protentional.

I helped open SCPA-Southfield in 2017, as a teacher in a third-grade classroom, and now entering my 5th year here as Southfield's principal and 21st year in education, I have been privileged to work with families and students that are dedicated to education and their students' development. Many of our Southfield families have been with us for years and or their child's whole education. Retaining amazing students and families makes Southfield a great place to learn, grow and achieve! We continue to grow our student population and move all students forward with a staff that truly cares about your student's success and well-being.

Southfield's goal is to always be present for our families and students and to provide top notch education for all of our students. I want you to know our door is always open, my goal is to work with you and your students to achieve success, in a comfortable and safe school environment. We are so proud of our students at Southfield, our students have worked hard and achieved high year after year.

Always feel free to reach out with questions or concerns, we want nothing more than to build strong, successful relationships with all of you and your students! It is our goal to have an amazing school year for all and I thank you for giving us the opportunity to work with you and your students.

Sincerely, Principal Rausch.

WE ARE SOUTHFIELD:

Southfield is a community that works together to achieve high expectations in academics. Each student is a key component in our community and is given the tools to progress and succeed. Our administration and staff are here to support each and every child's development. Supporting, their abilities to master core subjects and strengthen their social and emotional skills, by using differentiation to fit student needs. We strive to nurture our student's strengths and help them grow in all aspects, by setting small goals and working towards those goals together as a team.
